# WDS 3.6.2 iPhone Quick User Guide

iPhoneTM (OS version from 3.0)
Download from iTunes by searching on "WDS" or "TECH OP". Go to iPhone "Settings" -> "WDS" and enter your **Hostname**, **Username** and **Password** details. To start, touch the Reuters Wireless Delivery System icon.

Search on a symbol e.g. **TRI.TO** or free text e.g. **Thomson Reuters**

Shortcut
To place in the watchlist or shortcut for quick access later
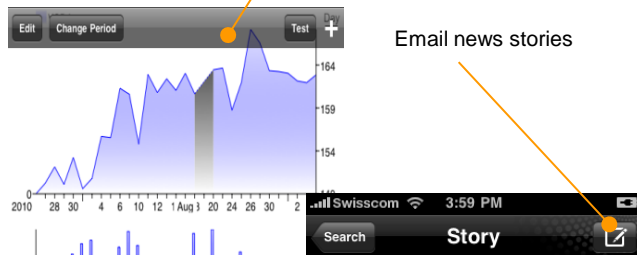

Full Quote
To see more information on quote

Scroll down to see chart. Rotate for interactive chart.

News
Search for news stories, display multi media Top News

Email news stories

My Pages
View content created with the Page Builder (see over)

Alerts
Add and remove instruments from the list and set/remove alerts

Status Green = online, Red = offline, Yellow = stale

Edit
Create and delete lists

Watchlists contain lists of instruments and alerts created by the user directly on the device. Thomson Reuters Eikon Desktop Quote Lists can also be viewed depending on configuration.

Page Builder (My Pages)

Use your desktop or laptop PC to set up pages for your iPhone. Go to **http://<hostname>/merlin/MPE**

You will need to supply your user name and password.

To create a page:

Click on the **Create Page** link and enter a name for the page.

An empty default screen with a red border will appear (right). Now select what you want to display (top left).

Supply the details relevant to that display. The example shows a matrix (quote list) – enter the RICs of the instruments to be displayed (space or comma separated). Choose a template (the fields you want to view for these instruments), or select **Custom** on **Advanced** to select each field individually. Click on **Go**.

To add a News pane, click in the screen on the right again, click on the **Add below** or **Add above** button, then select **News** from the drop-down (top left). Then specify the news code or text keyword.

Click on the **Save Screen** button to save the details.

Shared Pages
Click the **Shared page** button to share your page with other users in your organisation. Click the Import Page link to find pages that other users have shared.

Watchlists
Watchlists are not supported by the Page Builder. Although, custom templates can be created by the administrator. Custom templates can also be created by the user from the iPhone or BlackBerry.

RSS Feeds (Executive Channel)
A list of RSS feeds can be defined via the RSS Feeds page builder role. This is an administrator only function.

Select the component you want to add e.g. **Chart**, **Portfolio***, **Matrix**, **Quote** or **News**.

*BlackBerry only

Control the current page. Use the mouse to view a description of each button

Use these buttons to add or delete a component

Insert up to four components on a page to view on iPhone or BlackBerry handheld

Sample screen bordered in red. Click here before you select the component you want to add (top left)

These are pages you have already created. To edit a page, just click on it
